NEW CONCEPT  
AT THE FOREFRONT OF  
CONTEMPORARY DESIGN

Creativity and technical skills at the service of avant-garde creations. Sculptures, light & scent, jewelry and home accessories. Bold and innovative proposals with surprising decorations. A tireless quest to break boundaries and to search for new aesthetic paths. The results are unique creations requiring a different treatment and exhaustive experimentation.

# Face 2 Face

*Face 2 Face* is a new collection that opens with three cute little birds that combine synthesized forms with a two-fold decorative treatment. *Toucan*, *Sparrow* and *Hummingbird* are created using different techniques.

On one side, the wings and feathers are minutely etched while, on the other, they are represented with line drawing. And so, one face is decorated with enamels and varnishes and the other with black on white. The birds' beaks are finished in iridescent tones and each piece comes with a black lacquered metal support. A light-hearted treatment for creations that speak to us of duality and the complexity of opposites. After all, who hasn't got more than one face?

This striking African elephant is the latest addition to the *Origami* collection. When it is depicted with its trunk pointed upwards, this animal symbolizes good luck, prosperity and triumph. Like the rest of the pieces in this collection, it is a contemporary innovative reinterpretation of the traditional Japanese art of origami, in which the geometric forms produced by folding paper are transformed into powerful sculptural and decorative facets.

It is made in matte porcelain decorated in black with touches of yellow in the eyes.

The *Origami* collection is also adding a new version of *Panther*, now with an elegant golden metallic finish.

# BoldBlack

The *Boldblack* collection combines the elegance of two colors that enhance one another, black and gold. These matte porcelain creations are decorated in black with subtle well-chosen touches of gold. When applied to matte porcelain this two-tone design underscores the sculptural quality of the opening creations in this series: *Macaw*, *Leading the Way* and *Gorilla*.

*Gorilla* is a decorative and functional tabletop lamp with a shade also decorated in black and gold.

*Boldblack* demonstrates the influence that color has over the final form, and how the same design can have a completely different message by just changing the color.

# MASK

*Lion Mask* joins the *Fierce Portraits* collection, a series of creations that translate the traditional art of African tribal masks to the world of porcelain. The results are decorative designs that play with an elegant combination of white, black and gold, applied on masterfully sculpted faces.

Like the rest of the pieces in this series, *Lion Mask* has a hook for hanging on the wall as well as a tabletop support.

Functional objects featuring beautiful creatures from tropical jungles. *Quetzal Box* and *Hummingbird Box* contrast the wealth of coloring of the birds with the matte holders, with varnished details that underscore the lines of the etching on the lids. The birds are decorated with lusters and with metallic, iridescent pigments in a wide spectrum of colors.

*Koi* is the latest addition to *Boldblue*, the collection consisting of pieces decorated with the intense blue made famous by the artist Yves Klein in the 1950s. The velvety texture of this elegant color contrasts with the shiny and matte golden luster used to decorate details of the composition like the central fin or the delicate flowers.

Koi carp symbolize fortune, patience and long life.

# Plant the FUTURE

The connection between people and nature inspired this collection of handcrafted planters that combine the beauty of botanical art with the nobility of porcelain.

This collection was designed in collaboration with *Plant the Future*, an avant-garde botanical art gallery and biophilic design studio which was founded by Paloma Teppa in Miami, FL. These creations fulfill Plant the Future's mission to reconnect people with nature through art and design.

The Lladró design team is presenting these new pieces as a tribute to the world's largest mammals and their symbolism. The ability of whales to navigate and to communicate with each other is crucial in protecting the group and defending themselves from predators, and for this reason they represent well-being and emotional depth.

Made in a combination of matte and glazed porcelain, the upper part is decorated with enamels, degraded in tone from the tail towards the head, while the lower part features an etching of horizontal lines on matte porcelain. The end result is two pieces that recall the importance of looking after animal life and also transmit beauty and tenderness. Porcelain creations that produce emotions.

A new piece in the *Ink Collection* inspired by classic North American illustrations from the 1930s. *Dagger and Rose* connects with the timeless everlasting theme of life and death: the rose symbolizes beauty, love and life while the dagger represents the opposite.

This powerful image is made in glazed porcelain with matte details and is decorated in bright intense colors. The piece has a built-in metal bar on the back for hanging on the wall or for a tabletop support.

# Kokeshi

These cordless lamps are a reinterpretation of the traditional simple Japanese Kokeshi dolls with rounded heads. Originally from the Tohoku region, in the north of the land of the rising sun, here these dolls are made in porcelain instead of wood and have been transformed into functional decorative lighting.

They are made in glazed porcelain decorated in a combination of pastel tones, colored vanishes and touches of golden luster. The shade is translucent matte white porcelain and has a tactile dimmer switch in metal etched with the brand's flower logo.

Here tradition is updated in the unique language of porcelain. Culture, design and functionality come together to produce versatile lamps with warm lighting.

FIREFLY LAMP  
BY OLGA HANONO  
01024138  
28 x 12 x 12 cm  
11 ¾ x 4 ¾ x 4 ¾"

The *Firefly* collection by Lladró takes on a new look thanks to a collaboration with the renowned designer Olga Hanono. The Mexican artist lends her signature stamp to a series already well known and loved by the public. Her taste in transforming interiors and objects and the use of geometric patterns has given rise to *Firefly* lamps that combine originality and aesthetic elegance. The use of black and metallic colors contrasted with pure white turns them into works of art, over and beyond their use function.

*Firefly* by *Olga Hanono* includes this cordless lamp with a porcelain shade and dimmer, as well as wall, ceiling and floor lamp versions.

The representation of the Chinese zodiac is expanded with a collection of candles and diffusers which opens with four of the twelve animals in the zodiac: tiger, serpent, horse and goat.

These animals have been meticulously etched by hand on the glazed porcelain lids of the candles and diffusers. Now this age-old symbolic tradition is matched with evocative fragrances like *Moonlight*, *Secret Orient*, *Gardens of Valencia* or *On the prairie*.

The glass containers come in different colors for each sign.

The face of Lord Ganesha, the god of abundance and the power to remove all obstacles, of art and science, is depicted in bas-relief on these candleholders. The lid is made in finely detailed white glazed porcelain while the glass holder is given a golden finish. This combination of white and gold and the luxuriance of the enveloping *Gardens of Valencia* aroma are a tribute to one of the most venerated Hindu gods.

*Gardens of Valencia* is a delicate perfume with citric fruity notes of bergamot, tuberose, sandalwood and musk.
